

BAZA – Balkanska Ženska Akademija

Empowering women to shape tomorrow

*powered by The Alliance of Her
of the ALDE Party*

Part I: 16-19 April 2026 (in Bosnia and Herzegovina)

Part II: 15-17 May 2026 (online)

Part III: 12-14 June 2026 (in Serbia)

The Friedrich Naumann Foundation for Freedom is the liberal political foundation of the Federal Republic of Germany. For more than thirty years, it has been promoting open and tolerant societies, civic engagement and the rule of law in the Western Balkans with the aim of strengthening democratic and pluralistic principles and thus actively supporting the countries' European integration with its liberal values of freedom, peace and tolerance.

Our mission is to create change by empowering women to pursue their political ambitions. We believe that gender equality can only be ensured through adequate political representation not only in parliaments and councils, but also within liberal parties themselves. For liberals, there is no doubt that society as a whole is only served if the female part of society can develop as freely both politically and socially as their male counterparts.

Recognizing that the social circumstances are far from ideal, we strive to prepare women as best we can for their commitment to change. Even if we cannot immediately change the framework, we can empower those who will work to do so. We do this in the belief that there is a desire in the region for cross-border collaboration among strong women who support each other, offer advice and support, and want to reform their respective societies in the same way.

"BAZA - Balkanska Ženska Akademija" supports women in their quest to dismantle the gender barriers that stand in their path, and to fight every day for a future shaped by their voices. We offer tailor-made training modules within a four-month academy so that talented, ambitious liberal women can develop to the best of their abilities at all stages of their political journey. Eventually, we support female change makers to fearlessly and creatively advocate towards more gender equal politics in the Western Balkans, with a focus on Bosnia and Herzegovina and Serbia.

As of this year, BAZA is being implemented as an official Alliance of Her format, which means it is no longer just a stand-alone regional academy but part of a wider European liberal network dedicated to strengthening women's political leadership. In practical terms, participants gain access to a recognizable ALDE-linked platform, higher visibility and credibility for their work, and opportunities for exchange beyond the Western Balkans, including connections to mentors, speakers, and alumnae from across Europe. It also means BAZA follows shared quality standards and a clearer pathway from training to real political participation through liberal partner structures.
